Group Guidelines

for eXp Realty Agents

Workplace groups encourage and enhance cross-team collaboration, provide a place to give feedback and speed up decision making. You can join a group or create one!

Here are the guidelines when creating a group:

1. Make sure the group doesn't already exist.
2. The title of the group should not have "eXp" in the title as that is used for official company-monitored groups.
3. The group should be for discussion, project or general interest.
4. Groups should not create the expectation that eXp Realty support will be provided.
5. Ensure that your group aligns with eXp Realty core values.

The following are prohibited in Workplace:

- **Spamming Workplace Chat:** Using Workplace Chat to bulk message and/or cold call users without their consent.
- **Group invites:** Inviting users in bulk to groups without their consent.
- **Selling:** Selling of merchandise and/or services, and/or the solicitation of Workplace users, except in designated groups such as eXp Marketplace.

TIP: If you want to limit the number of Group notifications you receive, you can by:

- Going to the Group,
- Clicking "Notifications" in the top right and
- Selecting your desired notification level.
